

PROFESSIONAL RESUME AMIRUN HARRAZ BIN BUDIZAMAN

NAME : AMIRUN HARRAZ BIN BUDIZAMAN
POSITION : MECHANICAL ENGINEER
DATE OF BIRTH :
NATIONALITY : MALAYSIAN
MARITAL STATUS :
CONTACT ADDRESS : Batu Kawan, Penang
Tel : 018-2393250
EMAIL : harrazamirun@gmail.com

EXPERIENCE SUMMARY

Dedicated mechanical engineer registered with BEM, eager to apply my skills in design, problem-solving, and project management. Skilled in using CAD software such as AutoCAD and SolidWorks. Motivated to contribute to innovative projects and continuously grow within a dynamic organization. Seeking a role to solve practical challenges and develop professionally.

ACADEMIC/TECHNICAL QUALIFICATIONS:

2020 – 2024

Bachelor of Mechanical Engineering (Hons.)
Universiti Putra Malaysia (UPM)

2019 – 2020

Foundation in Engineering
Universiti Teknologi MARA (UiTM)

WORKING EXPERIENCE

Year : April 2025 – Present

Company : Greatech Integration (M) Sdn. Bhd

Position : Mechanical Design Engineer I

Project Involved:

- Mechanical Parts Design

Job Description:

- Designed mechanical parts: Executed piece part design using 3D CAD software and applying DFM principles for manufacturability.
- Prepared technical drawings & BOM: Created detailed drawings and Bills of Materials (BOM) for production.
- Translated customer requirements: Converted client requirements into technical design specifications and ensured feasibility.
- Managed design timelines: Planned, tracked, and coordinated project schedules across design phases.
- Implemented improvements: Identified and applied enhancements to product design and manufacturing processes.

- Collaborated cross-functionally: Worked closely with engineers and drafters to ensure smooth project execution and delivery.
- Prepared technical documentation: Compiled and organized documents for part registration, fabrication, and project reference.

Year : February 2024 – August 2024

Company : The Bloomberg Philanthropies Initiative for Global Road Safety (BIGRS)

Position : Enumerator (Part Time)

Project Involved:

- Road Safety Data Collection

Job Description:

- Developed policies: Focused on reducing traffic-related fatalities and injuries.
- Collected data: Gathered information on Malaysian drivers in Wangsa Maju.
- Collaborated with authorities: Worked with local authorities to enhance road safety.
- Prepared reports: Compiled findings and made recommendations for road safety.

Year : July 2023 – October 2023

Company : MIT Technologies Sdn Bhd

Position : Product Support Engineer Intern (Internship)

Project Involved:

- iCWD Maintenance and Testing

Job Description:

- Maintained and serviced iCWD: Ensured optimal performance and reliability in alignment with operational standards.
- Conducted tests: Performed physical and electrical tests on products and materials.
- Calibrated equipment: Verified and calibrated equipment to meet client specifications and regulatory requirements.
- Gained hands-on experience: Worked on process and equipment reliability within the oil and gas industry.
- Contributed to system efficiency

OTHERS (TRAININGS/SKILLS/etc.)

- AutoCAD
- Solidworks
- ANSYS
- C++
- Microsoft Office
- SPSS (Intermediate)
- Catia (Basic)
- Python (Basic)
- Welding
- Milling
- Casting (Metal)
- Malay (Native)
- English (Fluent)

INVOLVEMENTS

- Participated in Site Safety Supervisor [SSS] Course | 2024
- Runner Up in SUKOL Dodgeball Tournament | 2022
- Participated in Catia V5 Software Short Course | 2022
- Silver Awards in ASiD Innovation & Creativity Day | 2019
