EXPERIENCE SUMMARY

Dedicated mechanical engineer registered with BEM, eager to apply my skills in design, problem-solving, and project management. Skilled in using CAD software such as AutoCAD and SolidWorks. Motivated to contribute to innovative projects and continuously grow within a dynamic organization. Seeking a role to solve practical challenges and develop professionally.

ACADEMIC/TECHNICAL QUALIFICATIONS:

Oct 2020 – Jul 2024
Bachelor of Mechanical Engineering (Hons.)
Universiti Putra Malaysia (UPM)
Jul 2019 – Jun 2020
Foundation in Engineering
Universiti Teknologi MARA (UiTM)

WORKING EXPERIENCE

Year : Apr 2025 - Present

Company : Greatech Integration (M) Sdn. Bhd

Position : Mechanical Design Engineer I

Job Description:

- Executed piece part design using 3D CAD software and applying DFM principles for manufacturability.
- Created detailed drawings and Bills of Materials (BOM) for production.
- Converted client requirements into technical design specifications and ensured feasibility.
- Planned, tracked, and coordinated project schedules across design phases.
- Identified and applied enhancements to product design and manufacturing processes.
- Worked closely with engineers and drafters to ensure smooth project execution and delivery.
- Compiled and organized documents for part registration, fabrication, and project reference.

Year : Feb 2024 – Aug 2024

Company : The Bloomberg Philanthropies Initiative for Global Road Safety (BIGRS)

Position : Enumerator (Part Time)

Job Description:

- Focused on reducing traffic-related fatalities and injuries.
- Gathered information on Malaysian drivers in Wangsa Maju.
- Worked with local authorities to enhance road safety.
- Compiled findings and made recommendations for road safety.

Year : Jul 2023 – Oct 2023

Company : MIT Technologies Sdn Bhd

Position : Product Support Engineer Intern

Job Description:

- Ensured optimal performance and reliability in alignment with operational standards.
- Performed physical and electrical tests on products and materials.
- Verified and calibrated equipment to meet client specifications and regulatory requirements.
- Worked on process and equipment reliability within the oil and gas industry.
- Contributed to system efficiency.

OTHERS (TRAININGS/SKILLS/etc.)

- AutoCAD
- SolidWorks
- ANSYS
- C++
- Microsoft Office
- SPSS (Intermediate)
- Catia (Basic)
- Python (Basic)
- Welding
- Milling
- Casting (Metal)
- Malay (Native)
- English (Fluent)

INVOLVEMENTS

- Participated in Site Safety Supervisor [SSS] Course (2024)
- Runner Up in SUKOL Dodgeball Tournament (2022)
- Participated in Catia V5 Software Short Course (2022)
- Silver Awards in ASiD Innovation & Creativity Day (2019)
