

Akmal Azam Fauzi, P.Tech,

Bachelor Eng Electrical Power

Email: akazmofa@gmail.com Tel: +6012-9893069 (Mobile)
Board of Engineer Malaysia (BEM) No.: 1111-030000-GE-73822R
Malaysia Board of Technologist (MBOT) No : PT24070079

Dynamic and results-driven Section Head for TechnipFMC Subsea Services in the Asia Pacific (APAC) region, with over 22 years of comprehensive experience across onsite and offsite operations. Possessing foundation in Electrical Engineering, complemented by a proven track record of leadership and strategic execution in complex organizational environments. Demonstrated expertise in Upstream and Downstream sectors, as well as Greenfield and Brownfield projects, with a deep understanding of operational challenges and project lifecycles.

Extensively involved in Supply Chain, Contract Management, Commercial Strategy, Project Management and Engineering, consistently delivering value across multidisciplinary teams and high-stakes initiatives. Recognized for driving performance, fostering collaboration, and navigating diverse stakeholder landscapes to achieve sustainable outcomes in the energy sector.

Employee Recognition & Awards

- **TechnipFMC (2023):** *Certificate of Appreciation* for exemplary contributions to the success of the LEAN Improvement Project – *Stalled Job Initiative*.
- **WZS Misi Setia (2019):** *Certificate of Appreciation* in recognition of outstanding contributions and commitment over a three-year period.
- **Sarawak Shell Bhd (2016):** *Service Recognition Award (SRA)* for achieving a 20% cost savings (RM4 million) through optimization of project logistics and marine spread utilization across portfolio projects
- **Maser Marine Engineering (2012):** *Certificate of Appreciation* for five years of dedicated service and professional excellence.
- **Honeywell (2006):** *Spot Award* for successfully generating RM3.4 million in turnover within a three-month period, demonstrating exceptional commercial performance

Professional Experience

Jan 2020 – Current

TechnipFMC

Section Head, APAC Subsea Services

TSLAW Tower,

Kuala Lumpur, Malaysia

Key Responsibilities:

- Lead and manage the GSP APAC Subsea Services team, overseeing contract management, small- to medium-scale fabrication, spare equipment provisioning, and maintenance & repair activities, with direct accountability for strategic supplier relationships.
- Administer supplier contracts for Subsea Drilling Systems (SDS) and Subsea Production Systems (SPS) across TechnipFMC facilities in Nusajaya (MY), Labuan (MY), Shenzhen (CHN) and Balikpapan (INA).
- Monitor and optimize demand/supply planning processes to ensure accuracy, timeliness, and full compliance with HSE standards and technical specifications.
- Negotiate and establish Service Level Agreements (SLAs) with suppliers, in alignment with TechnipFMC's operational authority levels and strategic objectives.
- Collaborate closely with regional stakeholders and country-level organizations to ensure seamless integration of commercial strategies with operational execution.
- Implement robust Contract Management frameworks to drive cost leadership, regulatory compliance, and high-performance supplier delivery.
- Advise tender teams on upcoming subsea service bids by providing insights into current market trends and commercial intelligence.
- Conduct supplier market analysis and organize spend intelligence across APAC operations, benchmarking costs to maintain TechnipFMC's competitive edge.
- Solve complex operational and commercial challenges through data-driven analysis and strategic problem-solving, with awareness of cross-functional impacts.
- Utilize enterprise systems including SAP, ORACLE, Power BI, and Intelex to support decision-making and operational transparency.
- Contribute to the rapid expansion of TechnipFMC's Subsea Services business across the Asia Pacific region.

Oct 2016 – Jan 2020

WZS Misi Setia Sdn Bhd

Head of Commercial and Supply Chain

WZS Group Headquarter, Seri Kembangan

Key Responsibilities:

- Led the Commercial and Supply Chain departments, ensuring delivery of departmental KPIs and strategic objectives.
- Oversaw supply chain operations for the Gebeng fabrication yard, including procurement, logistics, and vendor governance.
- Directed high-level project scopes such as due diligence, joint venture strategy development, and engagement with key consultants.
- Developed and executed commercial and partnership strategies aligned with evolving business needs.
- Managed a portfolio of commercial and business clients, ensuring profitability and optimal facility utilization.

- Conducted market intelligence, competitor analysis, and strategic assessments to identify new project opportunities.
- Governed company-wide risk management, document control, corrective actions, and legal compliance with HSE standards.
- Accountable for project acquisition, vendor management, and inventory/store operations.
- Fostered strong client relationships and strategic networks within customer organizations.
- Designed and implemented supply chain models responsive to market shifts, cost optimization, and new business opportunities.
- Ensured cross-functional coordination with marketing, operations, HR, and technical teams for seamless material flow and order fulfillment.
- Monitored demand/supply planning accuracy and supplier performance against contractual obligations.
- Negotiated supplier contracts with a focus on continuous improvement in cost, quality, delivery, and inventory control.
- Acted as senior point of contact for supply chain inquiries, service requests, and issue resolution.
- Maintained internal controls and compliance with audit standards, including inventory and consignment stock management.
- Reported directly to the Chief Executive Officer.

WZS Misi Setia Sdn Bhd

Head of Project and Proposal Corporate Office, Bandar Sri Petaling, Malaysia

Key Responsibilities:

- Managed and delivered multidisciplinary projects across Oil & Gas, Power, Water, and General Industries, with a cumulative order book of RM47 million.
- Led the Project Management Team (PMT), comprising engineers and field service personnel, to ensure successful project execution.
- Conducted constructability studies and implemented construction strategies to meet project objectives on time and within budget.
- Oversaw procurement processes in compliance with company and ISO standards.
- Directed tender preparation, contract documentation, and proposal submissions for major clients including Petronas, Shell, ExxonMobil, and Sapurakencana.
- Reviewed and approved technical documentation and scopes of work, ensuring alignment with project goals.
- Demonstrated strong leadership and interpersonal skills, engaging effectively across all organizational levels.
- Provided strategic input on business development and market intelligence, identifying viable opportunities in local and global markets.
- Maintained technical expertise in products from GE, Cameron, IMI CCI, and Scott Safety.
- Ensured HSSE compliance across all projects and contracts.
- Managed relationships with international principals, sub-vendors, and suppliers.
- Mentored new staff, facilitating knowledge transfer and technical onboarding.
- Addressed technical matters for new projects and maintenance services.
- Developed and executed comprehensive implementation plans covering people, processes, and technology.
- Created stakeholder communication plans and managed project risks and issues.
- Applied knowledge of petroleum industry standards, including PTS and DEP, and local legislative requirements.

- Prepared monthly operational reports for internal and external stakeholders

Key Project:

- 1) Engineering, Procurement, Construction and Commissioning (EPCC) of Natural Gas Distribution System to Kluang FL Stage 1/18, (Kluang - Ayer Hitam Reinforcement), for **Gas Malaysia**
- 2) Engineering, Procurement, Construction and Commissioning (EPCC) of Natural Gas Distribution System to Lipat Kajang FL Stage 1/18, (Reinforcement), for **Gas Malaysia**
- 3) EPCC on PC 90001: Upgrading Train 9 Rundown Flow Meter to Allocation Metering at Petronas LNG Complex, Bintulu, Sarawak for **MLNG**
- 4) Engineering, Procurement, Fabrication, Construction and Commissioning for Shah Alam City Gate Station Upgrading (SHADOW) for **Petronas Gas Berhad**
- 5) Supply, Installation, Configuration and Commissioning of New Open Channel Flowmeter at Eleven(11) Sludge Treatment Facilities and New Flowmeter at Twelve(12) Water Treatment Plants of **Pengurusan Air Selangor Sdn Bhd**
- 6) Provision of Engineering, Design, Procurement, Fabrication, Supply, Delivery, Testing & Commissioning of 2 units of Ultrasonic Flowmeter for Petronas Bokor– **Malaysia Marine Heavy Engineering Sdn Bhd**
- 7) Provision of Engineering, Design, Procurement, Fabrication, Supply, Delivery, Testing & Commissioning of 2 units of Ultrasonic Flowmeter for Petronas Baronia –**Petronas Carigali Sdn Bhd**
- 8) Provision of Engineering, Procurement, Supply, Delivery, Installation and Commissioning of 4 units of Ledeen Actuator at 4 sites for PGB Gurun – **Petronas Gas Berhad**
- 9) Provision of Engineering, Procurement, Supply, Delivery, Valve Integration Coupling and Testing of 7 units of Ledeen Actuator for Telok Gong Gas Pipeline and Metering Project (TUAH) – **Rev Energy/ Petronas Gas Berhad**
- 10) Provision of Engineering, Procurement, Supply, Delivery, Valve Integration Coupling and Testing of 2 units of Ledeen Actuator for Shah Alam City Gate Upgrading Project (SHADOW) – **Petronas Gas Berhad**
- 11) Provision of Engineering, Design, Procurement, Fabrication, Supply, Delivery, Testing & Commissioning of 1 unit of Ultrasonic Flowmeter for Petronas D28 – **Oceanmight Sdn Bhd/Petronas Carigali Sdn Bhd**
- 12) Provision of Engineering, Design, Procurement, Supply, Delivery, Testing & Commissioning of Ultrasonic Flowmeter At BNP-A for Baronia Rejuvenation Project Campaign 3 – **Petronas Carigali Sdn Bhd**
- 13) Provision of Supply, Testing, Installation and Commissioning of 1 unit 10 Tonne Monorail Hoist System for FPSO Kikeh Project – **Malaysia Deepwater Production Contractors Sdn Bhd MDPC**
- 14) Provision of Supply, Engineering and Installation for rental of 2 units of Diesel Generator Set to Jimah East Power Plant – **Toshiba Engineering Malaysia/Jimah East Power Plant**
- 15) Provision of Supply and Delivery of Ultrasonic Flowmeter Package for E6 Field Development Project - **Brooke Dockyard/User Sarawak Shell Bhd –**

- 16) Provision of Supply, Testing, Delivery and Commissioning of 2 units Ultrasonic Flowmeter for Benchamas Project for **MMHE/User Chevron**. Provision of Supply, Testing, Delivery and Commissioning of Ultrasonic Flowmeter for Malikai for **Technip/User Sabah Shell Petroleum Company Sdn Bhd (SSPC)**.
- 17) Provision of Engineering, Procurement, Delivery, Hook-Up & Installation and Commissioning of Ultrasonic Flowmeter for Malikai for **Petronas Carigali - Sabah Operation**.

April 2012– Sept 2016

Shell Malaysia Exploration & Production

Senior Project Engineer

Sarawak Shell Berhad

Upstream International Asia

- Delivered Maintenance and Brownfield Projects across SMEP operating facilities, focused on restoring technical integrity, enhancing safety, and improving production performance.
- Managed full-cycle project execution encompassing Engineering, Procurement, Topside Fabrication, Offshore Installation, Hook-up, and Commissioning.
- Coordinated and integrated all onshore and offshore project activities, ensuring alignment with project controls including performance reporting, budget management (weekly, monthly, quarterly), WP&B, AFE, MOC, cost tracking, scheduling, risk mitigation, and technical interface management.
- Held direct accountability for project components including AFE, GIP, cost and planning, detailed design, logistics, marine operations, manpower support, FAT/SAT, QA/QC, procurement, materials management, pre-fabrication, commissioning, asset disposal, SSP, SIMOPS, HAZID, MOPO, IPOP, as-built documentation, and operational handover.
- Developed and implemented integrated project execution plans for FDP updates, FIP, brownfield tie-ins, and facility modifications, including oversight of tendering, procurement, and contracting for LLI packages and WBS planning.
- Conducted constructability reviews and led construction implementation strategies to ensure safe, efficient, and cost-effective project delivery.
- Ensured full compliance with contractual procedures and requirements throughout the project lifecycle.
- Designed and executed realistic implementation plans encompassing people, processes, and technology to meet project objectives on time, within budget, and to quality standards.
- Developed stakeholder communication strategies and managed engagement across internal and external interfaces.
- Served as Package Engineer for engine and compressor upgrades and retrofits at Shell's North Sabah Platforms.
- Fully accountable for Facilities Improvement Projects from execution through to operational handover, ensuring readiness for the Operate phase.
- Applied strong working knowledge of offshore HSE practices and embedded Shell's HSSE policies, standards, and guidelines into project execution.
- Promoted a generative HSSE culture through the Hearts & Minds framework, fostering safety ownership and behavioral excellence across teams.
- Maintained compliance with petroleum industry standards, Shell DEP specifications, and local legislative requirements

Key Projects & Achievements:

1. SFKA E2400 & E2500 Compressor Cooler Replacement Project – South Furious

- Led removal, installation, hook-up, and commissioning of 2 compressor coolers at offshore South Furious.
- Achieved RM4 million in cost savings through optimization of marine spreads, logistics, manpower, and construction strategies.
- Managed total project AFE of RM37 million.
- Recognized with Sarawak Shell Berhad's SRA Award for excellence in execution.

2. Engineering Procurement & Upgrading of LCOT Loading Pumps

- Oversaw procurement and upgrade of 3 LCOT loading pump units.
- Ensured seamless integration with existing systems and compliance with Shell's technical standards.

3. Internal Combustion (IC) Engines Technical Integrity Upgrade

- Managed upgrade of 21 compressor/engine units across 3 offshore locations: South Furious, St Joseph, and Barton.
- Enhanced reliability and integrity of offshore power generation assets.

4. South Furious Jib Crane Installation Project

- Directed installation of 3 jib cranes at Barton, South Furious, and St Joseph platforms.
- Improved offshore lifting capabilities and operational safety.

5. Technical Integrity Program – Sabah & Sarawak Assets

- Spearheaded integrity upgrades across multiple offshore assets.
- Strengthened asset reliability and extended operational lifespan in line with Shell's Asset Integrity Management System (AIMS).

Sept 2006 – April 2012

Maser Marine Engineering Sdn Bhd Project Manager

Kenanga International, Jalan Sultan Ismail,
Kuala Lumpur

- Managing and delivering projects for Oil and Gas Industry consist of upstream and downstream; ie - Petronas Carigali, Petronas Dagangan, Petronas Gas, MTBE, FPSO Ventures, PFK, Exxonmobil, Shell, Ranhill Worley Parsons, Talisman, Newfield, Nippon Oil, BC Petroleum
- Lead business development team on strategy on sales and marketing
- Responsible for preparation for tender/contract documents for Mechanical, Process, Civil, Structural and Electrical & Instrumentation work related to Oil and Gas Industries. Carried-out bid evaluations and final selection of contractors/vendors
- Monitor and implement HSSE activities for his projects and contracts
- Ensure that personnel from operations be involved as active members of the commissioning and start-up team, especially if the commissioning and start-up involves interfacing with the existing systems

- Responsible for preparation for tender/contract documents for Mechanical, Process, Civil, Structural and Electrical & Instrumentation work related to Oil and Gas Industries. Carried-out bid evaluations and final selection of contractors/vendors
- Provide guidance to new staff in terms of knowledge transfer
- Responsible to cover any technical matters for new projects as well as services / maintenance projects.
- Quality Management Representative (QMR) and Internal Auditor for ISO 9001:2008
- Direct reporting to CEO

Key Projects & Achievements:

- 1) Provision of Early Production Vessel (EPV) Topside Process Equipment for **Balai Cluster Petroleum**
- 2) Provision of TukaTrunkline Monitoring Maintenance for **PCSB - SKO**
- 3) Provision of Renovation of Nippon Information (KL Office) Information Technology Infrastructure : Network Design, Configuration, Installation and Network Cabling for **NOEX, KL**
- 4) Provision of Service Representative and Materials for SIEMENS S7 PLC for **EXXONMOBIL Malaysia**
- 5) **LEKAS** – Subsea Pipeline and Subsea Cable Installation Work for **Ranhill-Worley Parsons**
- 6) Provision of Electrical Works for **CH Mutiara, KLCC**
- 7) High Speed Multi-Homing Package for **Talisman Limited, KL**
- 8) Provision of Rental Safe House Habitat Equipment and Manpower for Bekok Strengthening for **PCSB – PMO**
- 9) Provision of Rental Safe House Habitat Equipment and Manpower for Bekok C Project for **PETRONAS Carigali-PMO**
- 10) Provision of Rental Safe House Habitat Equipment and Manpower for Tiong, Ledang, Kepong and Tinggi Non Shutdown CWR Project for **PETRONAS Carigali-PMO**
- 11) Provision of Supply, Fabrication and Replacement of Bekok C Piping for 2HX 588 Discharge Line for **PETRONAS Carigali– Peninsular Malaysia Operation**
- 12) Provision to Perform Inspection, Servicing and Calibration for Protective Relays for Generators at FPSO Bunga Kertas for **FPSO Ventures**
- 13) Provision to Supply, Install, Test and Commissioning of Non Directional Beacon (NDB) at FPSO BungaKertas, for **FPSO Ventures**
- 14) Provision of Procurement and Fabrication for General Dulang Construction Work at Dulang-B for **PETRONAS Carigali – Peninsular Malaysia Operation**
- 15) Provision of Structural Strengthening For P4040E Extended Deck At ANPG – A for **PETRONAS CarigaliSdnBhd – Peninsular Malaysia Operation**
- 16) Provision of Supply and Installation of One (1) Unit 2000kVA Standby Generator for SSB Data Centre Lutong for **Sarawak Shell Berhad**
- 17) Provision of Engineering, Procurement, Construction, Commissioning and Maintenance Services for TukaTrunkline Monitoring System at Tuka Field for **Petronas Carigali SdnBhd – Sarawak Operations.**
- 18) Provision of Design, Supply, Installation, Testing and Commissioning of Telecom Equipment for Microwave Links Replacement Project for **Sarawak Shell Berhad**
- 19) Net Gas Chloride Vesel Project for **Petronas Penapisan Melaka**
- 20) **Petronas Penapisan Melaka’s** CDU2 Water Wash Project
- 21) **Petronas Carigali’s Tembungo B** – Installation of 2 Unit of Multiphase Pump Boosting.

March 2004 – Sept 2006

Honeywell Engineering Sdn Bhd

Petaling Jaya, Selangor

DCS Project Engineer

Control & Automation – Offshore and Onshore Project & Services

Responsibilities:

- To deliver front-end quality technical services and project that will result in value added deliverables and ensuring customer satisfaction.
- Responsible to plan, implementation, maintenance, improves performance for company's products in client's facilities.
- Executes upgrade and expansion project for client in East Coast peninsular Malaysia region.
- Perform Customer Relationship Management and ensure good service to Installed base customer with contract specification and Honeywell Industry Services standards.
- Resident Engineer for PGB GPP-A

Key Projects & Achievements:

- 1) **Petronas Carigali** Host-Tie in project at Pulau-A for Ledang-Anoa
- 2) **PGB Export Terminal** DCS – Flow Com Project
- 3) **PGB GPP3** AGRU Project
- 4) **PGB GPP2** Auxiliary Boiler Modification Project
- 5) **PGB GPP3** Waste Heat Boiler Modification Project
- 6) **PGB GPP4** Turnaround Project
- 7) **Exxonmobil** Guntong-E Platform Project
- 8) **PVC-VCM Changzhou-Canghua** Chemical Industries
- 9) **PGB Gas Processing Plant 1 (GPP1) and Export Terminal (ET)** Project (Rejuvenation and Revamp)

TRAININGS and WORKSHOP ATTENDED

- **TechnipFMC** Discover Subsea Project : Subsea 2.0
- **TechnipFMC** Discover Subsea Products : Fabrication Subsea Wellhead
- **TechnipFMC** Introduction to Lean Six Sigma and Problem Solving
- **TechnipFMC** High Performing Teams : Effective Collaboration in Virtual Teams
- API Q2 Audit and Risk Assessment Training
- Dynamic of Negotiating Training
- Six Sigma Green Belt Training
- **Shell Project Academy (SPA)** – Applying Project Controls Training
- **Shell Project Academy (SPA)** – Contributing Shell Projects Training
- **Shell** Hearts and Mind Workshop – Proactive Intervention Culture

- **Shell** SAP Training
- Technical Report Writing and Presentation Skills for Professional
- Project Management and Cost Estimation Training
- Multiphase Pump Boosting from Bornemann at Sabah.
- 12 Life Saving Rules and Environment Quality Act and Regulation.
- Shell Global Business Principle Course (SGBPC)
- Introduction of ISO 9001:2008
- Internal Audit Course for ISO 9001:2008
